FOR IMMEDIATE RELEASE

Milestone Systems Names WLANmall/Continental Computers
As Regional Partner of the Year

Los Angeles –March 12, 2015—WLANmall and its parent company, Continental Computers, were named Milestone Systems' 2014 Regional Partner of the Year at the 10th Annual Milestone Integration Platform Symposium (MIPS) 2015 in Las Vegas. Milestone Systems is a global industry leader in open platform IP video management software.

WLANmall was recognized because of the sophisticated surveillance systems it planned, built and implemented throughout the US, which included Milestone Systems open platform IP video management software (VMS), for a variety of customers, including:

- A sprawling technology campus with multiple locations that required facility control/monitoring (Milestone XProtect® Professional/Milestone XProtect® Access Control Module);
- Numerous law enforcement agencies for bothcovert (i.e. undercover investigations) and overt (i.e. public space observation) surveillance (Milestone XProtect® Corporate);
- Several municipalities to ensure public safety (Milestone XProtect Corporate); and
- Elementary, secondary and tertiary educational facilities for student protection and early notice of suspect activity (Milestone XProtect® VMS).

"We are honored to receive this award from Milestone Systems, which is such an innovator in the IP video management space," said Ronen Isaac, vice president of WLANmall. "Milestone continues to expand its offerings of leading edge, scalable and reliable solutions that have been the cornerstone of our end-to-end security and surveillance systems that help keep our customer assets secure and municipalities safer."

"WLANmall is the winner of our Regional Partner of the Year award for 2014 for showing dedication to the Milestone brand and for a strong mutual partnership that has produced significant revenue growth year over year," said Tim Palmquist, VP Americas for Milestone

Systems. "Their commitment to achieving and maintaining Milestone's Expert Certification in its staff has resulted in exceptional quality in the design, installation and support of our XProtect video management systems."

About WLANmall

WLANmall offers end-to-end, best-of-breed solutions from dozens of vendors to help its customers plan, build and deploy the most advanced and reliable wireless and surveillence networks available. WLANmall's parent company, Continental Computers, has helped businesses design and implement customized, cost-effective network connectivity solutions since 1984.
